Special Pricing Per Quote	???
FCC Fee PALS - NEW LICENSE or RENEWAL Frequencies above 470MHz	\$320 ⁶
<i>Narrow-Banding – Please see Footnotes 3 and 7 below – Effective January 1, 2014</i>	⁷

- Frequency Coordination fees are assessed on a per frequency (Mobile simplex; FB/MO simplex) or per pair (FB2) basis.
- FB8 and/or 800-900MHz systems require extensive engineering and additional fees may be assessed for any contour and interference studies. **Call for pricing and pre-coordination service options.**
- Basic Processing covers the increase in mobile units or FX1 stations (meet 6.1 meter rule) and minor corrections (reductions in power, ERP or units or the deletion of locations or frequencies). **Basic Processing ALSO includes the change to Narrow-Band Emissions with only a reduction in bandwidth as well as ANY Emission Designator changes for 800MHz and 900MHz.**
- An Administrative Update **ONLY** covers correction to the Licensee and Contact Representative's mailing address, phone numbers and email address as well as updating or adding Primary Control Points. The increase the number of mobile units or control stations is considered a regular modification.
- This filing fee is a combination of the \$70.00 filing/processing fee plus the \$100.00 regulatory fee for the ten-year term of the license.
- This filing fee is a combination of the \$70.00 filing/processing fee plus the \$300.00 regulatory fee for the ten-year term of the license.
- Any licensees changing to narrow-band digital emissions should call for pricing. Modifying 800MHz and 900MHz to digital emissions is a "Basic Processing Fee" per call sign.**
